-The California Projects are two separate projects.

-Each project has a three-year program of work. This table describes Year 2 FY15 funding for each of the FY14 projects. These projects received initial funding in FY 2014 and have requested funding in FY16.

\* USFS will be allocating additional State and Private funding to several of the FY14 projects. Funding amounts are TBD at this time. Projects requesting FS S&P funding are indicated with an asterisk (\*).
